Green Campus, Plastic-Free Zone, and Campus Sustainability Policy

Introduction

Welcome to Kai. Rasika Mahavidyalaya, Deoni. We're committed to making our campus as green and sustainable as possible. This policy is our guide to creating a campus that's eco-friendly, free of single-use plastics, and focused on sustainability.

Green Campus

- a. We want our campus to be lush and green, so we take care of our gardens and trees to keep our environment healthy.
- b. We're all about using native plants and conserving water to make our campus beautiful and eco-friendly.
- c. We're always looking for ways to make our campus greener, like using energy-efficient lights and appliances.

Plastic-Free Zone

- a. Let's say no to single-use plastics! We encourage everyone to bring reusable bottles and containers instead.
- b. We're serious about cutting down on plastic waste, so please avoid bringing any single-use plastics onto campus.
- c. Don't worry, we'll help you find eco-friendly alternatives for your everyday needs.

Campus Sustainability

- a. We're committed to doing everything we can to make our campus sustainable in everything we do.
- b. When we buy things for the campus, we always choose environmentally friendly options whenever possible.
- c. We're big on saving energy too! From lights to appliances, we're always looking for ways to use less energy and be more efficient.

Transportation

- a. Let's get moving sustainably! We're all about biking, walking, carpooling, and using public transit to get around campus.
- b. Need a place to park your bike? We've got racks for that!
- c. And if you're driving, consider carpooling with friends or taking the bus to help reduce emissions.
